3. Profile of skills and competences

The occupational standard was developed and approved by the sectoral social partners.

The holder of the certificate of professional competence can:

protect buildings and property:

- protect floors with floor panels made of wood, cardboard or plastic;
- protect corridors, entrances, lifts and stairs with protective materials;
- make a visual inspection of existing and fresh damage to items and the surrounding area and report this orally to the team leaders or in writing in the report of damage.

pack:

- wrap up items and furniture in packing material suitable for the items so they can be well protected during the removal against dirt, damp, shocks, breakage and scratches;
- close all removal boxes with tape;
- mark and/or label each removal box;
- fix loose components so they cannot move during transport;
- carry trunks and boxes with fragile items upright;
- fix flat items with tension belts or binding tapes, using a running bowline.

unpack:

- remove binding tapes, tape and ropes without damaging the property;
- place items according to the installation plan;
- place all items in a stable fashion.

dismantle and assemble standard furniture:

- place a label on the inside before dismantling a piece of furniture;
- use tools suitable for the furniture to be assembled and/or dismantled;
- bring together screws, keys and other loose items for each piece of furniture or appliance;
- assemble according to the markings;
- use all the components during assembly.

work ergonomically:

- bend the knees and keep the back straight when lifting;
- hold the load as close as possible against the body;
- use equipment to move items;
- ask colleagues to help when lifting or moving heavy or large loads.
